## APPLICATIONS

- Protects aluminum truss
- Mark lighting pipes with fixture hang positions
- Label scenery battens

## DESCRIPTION

The C-Clip Truss Protector is a specially engineered accessory designed to protect aluminum truss from damaging fixture clamps and other mounting devices. It easily snaps into place to provide a safe barrier between the soft truss wall and the cutting edges of steel clamps.

## FEATURES

The C-Clip is fabricated from a tough polymer to withstand the rigors of heavy-duty production use and is designed with a unique shape to provide ease of installation and removal. Readily accepts grease pencil and marker for quick and easy identification.

## DIMENSIONS

Overall dimensions are approximately 2 1/4" D x 2" L.

*Also available from Future Light*

Orchestra Shell Lighting, SwivelPar,  
TileMount, Airwall Hanger Kit  
Virtual Light Lab Software
