Applications

- Orchestra Shell Downlight
- Stage/Studio worklight
- Acoustic canopies

DESCRIPTION

The Future Light 650 is a high-output luminaire specifically designed for floodlight applications for orchestra shell ceilings and stage/studio worklights. The high-output optical system provides a smooth even field across both axes. A hinged front safety glass provides for safe overhead use. It can be mounted for portable applications using a yoke and pipe clamp or for permanent installation using a custom bracket assembly. Unit is supplied with a 36" high temperature fiberglass sleeved pigtail.

SPECIFICATIONS

The Future Light 650 as manufactured by Future Light, Inc., Cleveland, Ohio shall accept 350 to 1000 watt double ended tungsten halogen lamps. The unit shall incorporate a textured aluminum reflector with hinged cover of heat resistant borosilicate safety glass. The housing shall be constructed of 18 gauge CRS with vents for cool operation. Using a FCM lamp, it shall provide a minimum of 100 fc as measured from 16' with a beam angle of 60°(50% of max) and field angle of 80°(10% of max).

DIMENSIONS

Unit measures 5"H x 9"W x 8"D and weighs 5 lbs.
